

“
I think it is
an absolute
life line –
I wouldn't be
without it ”

Mrs B, Windermere

Community Alarms South Lakeland

Community Alarms will provide:

- Loan of alarm unit and pendant
- 24 hour monitoring service by qualified staff
- Installation and maintenance visits by our local field officers

All charges are payable in advance.
On withdrawal of the service,
any excess payments will be
refunded for whole quarters only.

February 2012

In Touch Alarms Limited

Community Alarms South Lakeland

covering South Lakeland,
Furness and North Lancashire

Retain your independence
with a little help from your friends

We can provide a simple solution to help you maintain your independence and confidently stay in your own home.

We are a local service working together with New Progress Housing Association. With a Tunstall Lifeline, help can be with you at the press of a button. Developed with simplicity and ease of use in mind, a lightweight, easy to press pendant worn on a discreet cord around the neck enables you to call for help from your home twenty four hours a day.

“
At last I feel confident leaving Dad on his own now he has an alarm pendant”

Mr R, Kendal

You will need two local contacts who are happy to be key-holders and will not mind being called in the unlikely event that you need help. You will also need a standard telephone socket with an electricity point nearby.

If you are unable to provide contacts we may be able to help with a response service.

We have clients, both young and old, throughout South Lakeland and Barrow with a wide variety of needs. Some people are just getting older and want a bit of support, others are struggling with problems like dementia, heart problems or asthma. Many people who live alone feel happier knowing that help is always available, others need a temporary Lifeline on returning home from hospital.

Whatever your problem, if you think an alarm would help please give us a call to discuss your needs. We can usually install one within a few days of your enquiry.
